

COLOGNE ACADEMY
MANUAL OF SCHOOL POLICIES APPROVED BY THE BOARD

714 FUND BALANCE CLASSIFICATION POLICY

I. PURPOSE

The purpose of this policy is to create new fund balance classifications to allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).

II. GENERAL STATEMENT OF POLICY

The policy of this Cologne Academy is to comply with GASB Statement No. 54. To the extent a specific conflict occurs between this policy and the provisions of GASB Statement No. 54, the GASB Statement shall prevail.

III. DEFINITIONS

- A. “Assigned” fund balance amounts are comprised of unrestricted funds constrained by the school’s intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school’s intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
- B. “Committed” fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the board and that remain binding unless removed by the board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
- C. “Enabling legislation” means legislation that authorizes a school to assess, levy, charge, or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.

- D. “Fund balance” means the arithmetic difference between the assets and liabilities reported in a school fund.
- E. “Nonspendable” fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.
- F. “Restricted” fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- G. “Unassigned” fund balance amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.
- H. “Unrestricted” fund balance is the amount of fund balance left after determining both nonspendable and restricted net resources. This amount can be determined by adding the committed, assigned, and unassigned fund balances.

IV. CLASSIFICATION OF FUND BALANCES

The school shall classify its fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned, and unassigned.

V. MINIMUM FUND BALANCE

The school will strive to maintain a minimum unassigned general fund balance of 25% of the annual budget expenditures.

VI. ORDER OF RESOURCE USE

If resources from more than one fund balance classification could be spent, the school will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

VII. COMMITTING FUND BALANCE

A majority vote of the board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

VIII. ASSIGNING FUND BALANCE

The board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: *business manager*. Assignments so made shall be reported to the board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the board.

An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

IX. REQUIREMENT

All funds will operate with a positive balance. No fund, including food service and the general fund will be allowed to operate in the negative. Funds will be transferred from the general fund to the food service fund at year end to maintain this fund balance standard.

X. REVIEW

The board will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level.
